PROPOSAL FOR TSAPO GROUP · BYD ZIMBABWE · 22 OCTOBER 2026

Made here: documenting BYD vehicle assembly in Zimbabwe

THE OPPORTUNITY

Assembling electric vehicles and buses in Zimbabwe is a national first, watched closely by government, fleet buyers, investors and the public. We propose to document it from the start, on film and in photographs, at a standard that holds up beside BYD's own global material, and to turn that record into launch content Tsapo and BYD can use for years.

WHAT WE DELIVER

DELIVERABLE	DETAIL
Documentary series	Three short films of 3–5 minutes: *The Agreement*, *The Line* and *The Road*, following the programme from signing to the first vehicles in service. Plus a 90-second hero film.
Photography library	150 edited images of the plant, the people and the vehicles, cleared for press, dealer, tender and investor use.
Social launch kit	12 short vertical cuts, captioned, for Facebook, Instagram, LinkedIn and TikTok, with a posting schedule.
AI model visuals	40 studio-standard images across the BYD range sold in Zimbabwe, placed in recognisable local settings, without studio or crew hire.
Media pack	A designed press and investor pack in Tsapo and BYD branding, in print and digital formats.

TIMELINE · TEN WEEKS

Weeks 1–2
Briefing, site visits, access and safety clearance, shot list.

→

Weeks 3–6
Filming and photography on the line, with interviews.

→

Weeks 7–9
Edit, grade, AI visuals and design. Two rounds of review.

→

Week 10
Final delivery and launch support.

INVESTMENT

OPTION	SCOPE	FEE
A · Launch	Hero film, photography library and social launch kit.	**US$4,800**
B · Full programme	Everything above: documentary series, hero film, photography, social kit, AI visuals and media pack.	**US$9,500**

50% on signature, 50% on delivery. Excludes travel beyond Harare. Valid for 30 days from the date above.

NEXT STEP

A 30-minute meeting to agree scope and plant access. We can begin within two weeks of confirmation. Once the BYD work is under way, we would welcome the chance to propose a Clarity Sprint across the wider group.
